

## Echo Advisory® Airfield Mat System

### Uses

- Controls vegetation around airport post lighting, directional signs, wind socks, fences and buildings
- Reduces damage caused by mowing equipment to airfield lighting signs and other objects

### Features

- The 6-12 mm-thick mat is made from recycled rubber with polyurethane binders and is anchored to the ground with galvanized steel anchors
- Patented product designed to protect airfield lighting signs and other objects from impact damage caused by large, imprecise mowing equipment
- Lawn mower equipment can pass over the mat, cutting all the grass without the use of line trimmers while still staying a safe distance from lights or posts
- The airfield mat provides a wider contingency space for mowers to cruise past each light or post
- Cost-effective solution that controls vegetation in hard to reach areas without requiring extra labor to trim it or the use of environmentally damaging chemicals or poisons, protecting ground water, wildlife, and airfield crew from exposure
- Prevents erosion around the base of light or sign fixtures, which can cause water to pool under the fixture
- Eliminates extra labor and maintenance
- The Airfield Mat System qualifies for Airport Improvement Program (AIP) funding when bid as part of lighting, sign and fencing projects
- The mat is available in two styles: round and "football". The football mat is 4 feet wide by 7 feet long and uses 6 anchors to secure it in place.
- Patented anchoring system and "football" shape are designed to allow maintenance crews with larger mowers to mow in a line, from light to light, making only one pass on each side of the light. Mowers can move in a more natural mowing arc around airfield lights, expediting the mowing process even further.
- The airfield mats are large enough to prevent lights from disappearing in tall grass, which enables the mowing crew to see the lights better, preventing accidental breakage. Other smaller mats do not accomplish this same efficiency and often still require line-trimming to complete the job.
- The anchoring system, which uses spiral ground anchors, ensures that the mats do not dislodge due to jet blast or high winds. The anchors also prevent the edge of the mats from being sucked into the mowing machinery.

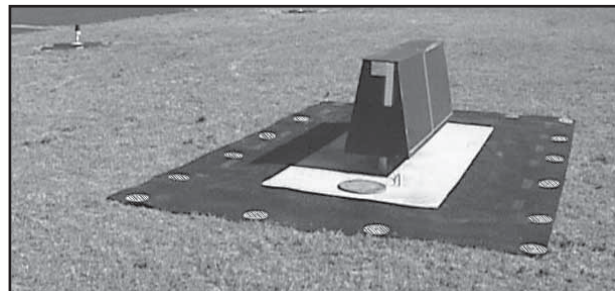

### Ordering Code

Part Number	Description
FM-1	Football Mat, 6 anchors for Base Can Mount
FM-2wi	Football Mat, 6 anchors with 12" Insert for Stake Mount
FM-2wi-18*	Football Mat, 6 anchors with 18" Insert for Either Mount
Special Order	Smaller Round and Custom Mats
SM-1**	Strip Mat, 30 ft, 10 Anchors
SM-2**	Strip Mat, 60 ft, 20 Anchors
IN-12	Extra Insert 12-inch Diameter
IN-18	Extra Insert 18-inch Diameter
A-10	Extra Set of 10 Anchors

### Notes

\* Universal configuration: 18" insert for stake mounted lights or main mat fits around base can lid. Covering can lid with insert is optional.

\*\* For strip matting, measure perimeter extending 2 feet from base of sign or object to be protected.

Strip matting around a directional sign.

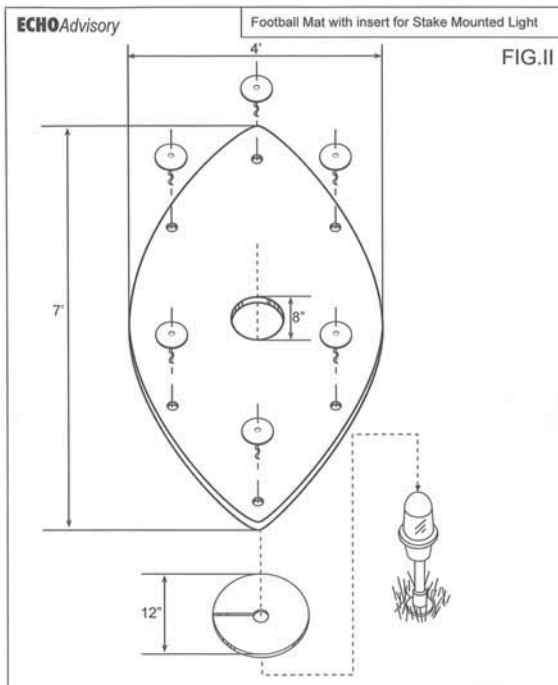

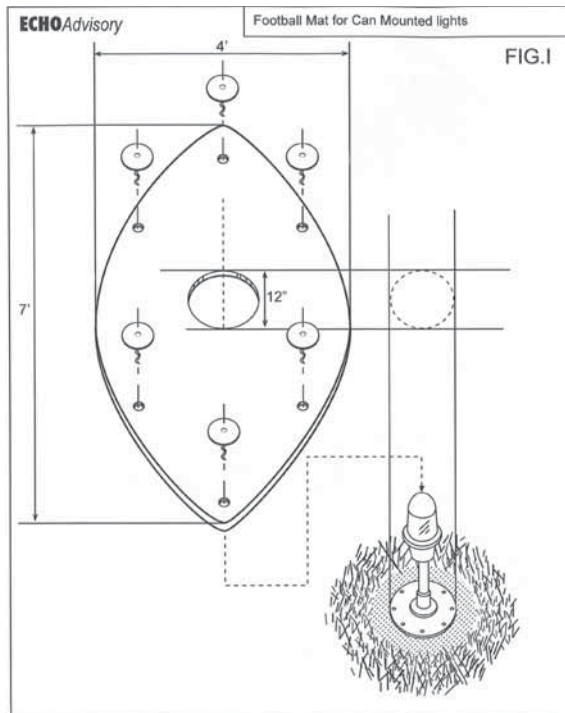

### Customer Benefits

- Saves money
- Protects airfield lights
- Saves labor time
- Reduces health risks
- Environmentally friendly
- Installs quickly and easily
- Long-lasting durability

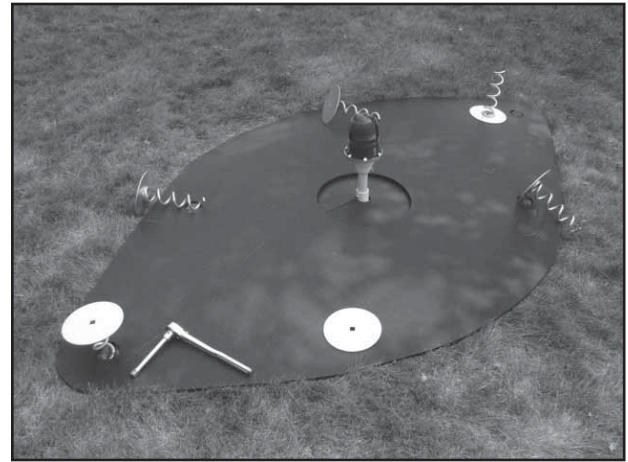

## Installation

The Airfield Mat can be used with either can-mounted or stake-mounted light fixtures.

- Base can-mounted (Fig. I) – The mat has a 12-inch center hole that snugly fits the rim of the base can, allowing direct access into the base can.
- Stake-mounted (Fig. II) – The mat has a smaller 8-inch inner circle with a 12-inch collar insert (or two) that snugly wrap around the light post.

The information contained in this document is subject to change without notice. ADB reserves the right to make changes and improvements to its products and assumes no responsibility for making these modifications on any equipment previously sold.

Football mat with collar insert and spiral ground anchors shown. Spiral ground anchors are secured with a 1/2-inch socket drive.

Twelve-inch center hole (shown left) fits snugly against the light base in can-mounted installation.

## Dimensions

	Width	Length	Center Hole*
<b>Standard Mats</b>			
Football (6 anchors)	48"	84"	12"
Football w/insert (6 anchors)	48"	84"	8"
Insert:	12" diameter		2"
Football Universal (6 anchors)	48"	84"	12"
Insert:	18" diameter		2"
<b>Smaller Round and Custom Mats</b>			
Available by special order			
<b>Strip Mats</b>			
30 ft. (10 anchors)	30"	cut during installation	
60 ft. (20 anchors)	30"	cut during installation	

\* Center hole can be custom ordered.
